mausoleum of the medusa

<https://www.youtube.com/watch?v=9cM-YAcDvjo>. Not worth the sale price.. This game is quite well made. It has an interesting plot, easy controls, and easy to understand game mechanics (White=the player, red=the bad monsters, and Black=EVERYTHING!). It's horror-theme though, is easily not as horror-able as some of the much much bigger horror-based games out there. All in all, good game.. Well... if ur >8. Good game, fun. Cute design of the game. Everything is clear, interesting. How to pass the second stage?

I love this game and i think you should get it.. ok. this is epic. I absolutely have not even got one single piece of sanity left.

When you literally die 600 times and you realize you've got about 25 more levels to go.  
. You can install it for free, but you can also uninstall it for free. This nice feature and generosity from makers of ESAE would want me to post neutral review..

เกมนี้มีขนาดอีกไกล ขอแอดอย่าหยุดพัฒนาจนกว่าจะสมบูรณ์ แค่นั้นพอครับ
